**DETAILED ACTION**

1. The Response filed by Applicant on 06/01/04 has been entered.

***Response to Response***

2. Applicant's amendment and arguments filed on 06/01/04 have been fully considered and they are found persuasive.

3. The rejection of claims 1-7 and 13-15 under 35 U.S.C. 102(e) as being anticipated by Barkac et al., U.S. Patent No. 6,670,043 (hereinafter "Barkac") is withdrawn.

4. With respect to U.S. Patent Nos. 6,506,836 and 6,716,905, the Examiner has found no double patenting issues.

***Allowable Subject Matter/Reasons for Allowance***

5. Claims 1-7 and 13-15 are allowed.

6. The following is an examiner's statement of reasons for allowance: The closest prior art located or identified by the Examiner is Barkac. Barkac teaches a thermosetting composition

comprising a cross-linking agent and a polycarboxylic acid functional polymer prepared by radical polymerization. The thermosetting compositions have utility as powder coatings compositions. Barkac further teaches a limited radically polymerizable ethylenically unsaturated compound useful for dehalogenating the precursor polymer of the carboxylic acid functioning polymer. The limited radically polymerizable ethylenically unsaturated compounds include diphenylethylene. See Barkac, col. 12, line 62 through col. 13, line 63. The present claims differ from Barkac in that Barkac does not disclose free-radical polymerizable ethylenically unsaturated compounds represent by general formula I.

7. As of the date of this Notice of Allowability, the Examiner has not located or identified any reference that can be used singularly or in combination with another reference including Barkac to render the present invention anticipated or obvious to one of ordinary skill in the art.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
